Dear Dr. Lederberg:

Dr. E. O. Dodson is revising his textbook of genetics, to be published by Reinhold. I have offered to help him with the new edition.

One of the additions we wish to make will be the inclusion of portraits of a few well-known geneticists. We would like to include a photograph of you, preferably previously unpublished.

If you can send one to me, I will be careful to return it as soon as the publisher has made the reproduction. A picture taken in the milieu of the lab would probably be best, if available.

Sincerely yours,

Vernon Bryson

*You know, Vernon,
since you give me room for
the option, I would just as
soon not. Thanks anyway.*

John.

*15. The option isn't always
so accessible & I thank
you for it.*
